

COMPRESSION TEST FIXTURE ACCORDING TO ASTM-C364

to test edgewise compressive strength of sandwich constructions

Max. load:	50 kN
Max. sample length:	75 mm
Jaw opening:	0 – 30 mm
Jaws:	75 x 10 mm (L x H), blank surface
Body:	Steel, nickel-plated
Temperature range:	0 ... 70°C Further temperature ranges on request
Weight:	1.1 kg per pair of grips without compression platens
Scope of delivery:	1 pair of grips without compression platens.
